EDGE ENGINE CONTROL CABLES

BY MULTIFLEX

- ▲ Lowest Friction due to Special EDGE Conduit
- ▲ Capable of Complex Routing & Longer Length application
- ▲ Minimal Backlash
- ▲ Minimum Cable Bend Radius is 4 Inches
- ▲ Yamaha, Suzuki, Honda, Mercury, Mariner, Tohatsu, Nissan, Johnson, Evinrude, Volvo Penta, Mercurise, Etc.

PWC / JET SKI CABLES

Multiflex manufactures high quality Steering, Throttle, Choke, Reverse and Trim cables for most Jet Ski models such as YAMAHA, SEA DOO, SEASTAR, KAWASAKI, HONDA. These cables are produced using internally lubricated stainless steel cable, OEM style connectors, and high strength sheathing.

Exhaustive range of PWC Cables

ENGINE CONTROL LEVERS

Engine Control Top Mount and Side Mount Lever provides you both throttle and shift operation for outboards and inboards at low shifting loads.

Multiflex offers various options of Control Levers:

TOP MOUNT SINGLE

TOP MOUNT DOUBLE

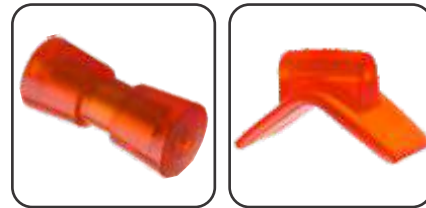

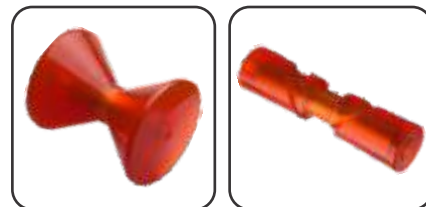

SIDE MOUNT

POLYURETHANE ROLLERS

MULTIFLEX offers an exhaustive range of PU Products for Boat Trailers. Engineered out of the best quality raw materials, and guaranteed for performance, these products are your best choice for a high price-performance ratio.

PU rollers differ from Rubber Rollers in terms of:

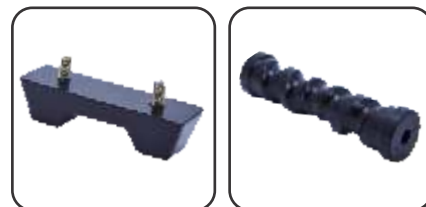

- ▲ Life : PU Roller has Longer life.
- ▲ Strength : PU Rollers have Higher strength.
- ▲ Cost : More expensive.
- ▲ Marking on Boat : Non marking.
- ▲ Resistance : Higher abrasion and weather resistant.

BOAT TRAILER RUBBER ROLLERS

MULTIFLEX offers an exhaustive range of Rubber Products for Boat Trailers. Engineered out of the best quality raw materials, and guaranteed for performance, these products are your best choice for a high price-performance ratio.

- ▲ Complete selection of rollers for most common applications.
- ▲ Constructed of high quality rubber.
- ▲ Extra large roller surface protects boat hulls.
- ▲ Friction reducing bushings for easy launch and load.
- ▲ Can handle heavy loads without deforming.
- ▲ Available in bulk or customized packaging.

MOORING COMPENSATORS

Mooring Compensators extends the life of your mooring lines, absorbing the tension and stress caused by sudden strain of wind or surf.

Multiflex offers a wide range of rubber mooring compensators in flat and rumble shape for different rope diameters.
